OVERVIEW

Jacobs Joinery and Shopfitters specialises in the design, manufacture and installation of bespoke shopfitting for a wide range of clients and international brands, operating in the retail, corporate, finance and leisure sectors.

With a diverse variety of client needs, we pride ourselves on our ability to meet, and exceed, expectations across the board, consistently delivering world-class services.

ABOUT US

Jacobs Joinery and Shopfitters has humble origins; growing from a small, family-run business into a key South African supplier of shopfitting and joinery products. Now boasting over 25 years of industry experience, the JJS brand is firmly established as an industry leader, offering exceptional customer service and technical expertise of the highest standards.

With a well-documented history of delivering world-class services, we are committed to providing clients with a full turnkey solution without losing a distinctive, personal touch.

OUR FACTORY

Products are manufactured in our 4000 square metre Pietermaritzburg facility. Our production equipment includes CNC machines, powder-coating abilities, a laser-cutter, beam saws and

a full range of specialised shopfitting and joinery equipment. Our Johannesburg facility serves as a base for installations.

INSTALLATIONS

Installations are carried out by well-equipped teams. Skills are maintained at a high level, as this is critical in delivering quality products. Jacobs' fleet of vehicles is geared to move installation teams and product quickly. International destinations are serviced by rail and sea. We manage our logistics using current scheduling and monitoring tools, including satellite tracking installed in our vehicles. Products are also packed and colour coded for efficient delivery and placement on-site.

B-BBEE

Jacobs Joinery and Shopfitters knows that a demographically representative economic market is of paramount importance to the durability and stability of business in South Africa. We value and support the process of workplace transformation, and continue to strive towards an improved rating, through our efforts to encourage employment equity, skills development, preferential procurement and socio-economic development. Our Jacobs Industries is registered as a level 2 B-BBEE Company.

OUR IN-HOUSE SERVICES

Our ten in-house departments work in tandem to ensure that we always deliver on what we promise. Through innovative and creative solutions, we are able to create an end product that communicates our understanding of both your needs as a business and those of your end-user.

Each department can work independently, allowing us to produce a large variety of jobs to our clients' satisfaction. As we work in a time-sensitive sector, we affirm our substantial capacity to produce work to deadline, with production facilities and installation teams designed to deal with this reality effectively.

SHOPTONIC

Jacobs Shoptonic is a maintenance service that we offer to our clients to ensure that their businesses are both beautiful and fully functional spaces. We have an exceptional team of well-trained and efficient personnel who are ready to undertake any repair and maintenance work with top-tier skills and the utmost professionalism. Maintenance contracts are tailor-made to suit the particular needs of the client and can include a number of different services.

For a set monthly fee, which is calculated based on the size of the store, we will visit the store initially to confirm the clients requirements and quote to bring the store up to a level that we will then maintain. We will report on the conditions to assist you in making prudent maintenance decisions. Our teams can then be scheduled to do maintenance checks at your retail store either once a month or once every second month, based on each client's requirements.

We determine what needs to be repaired, maintained and/or replaced. Our team will then carry out the necessary tasks immediately.

GENERAL MAINTENANCE

- Full HVAC (heating, ventilation, and air conditioning) maintenance, including air flow and temperature testing and air-conditioning refilling
- Joinery and shopfitting maintenance and repairs
- General painting touch ups
- Flooring and tiling repairs
- Window and shopfront cleaning
- Pest control including cockroaches and fishmoths

SAFETY MAINTENANCE

- Checking fire extinguisher and hose reels for pressure and expiry dates, as well as refills and annual services
- Emergency lighting testing
- Ensuring shopfront doors and locks meet safety standards
- Checking security alarms and ensuring cameras are properly installed

ELECTRICAL MAINTENANCE

- Checking distribution boards and circuits
- Replacing plugs, switches, light fittings and globes

You can rest assured that you are in good hands with Jacobs Joinery and Shopfitters. We are here to help you with all of your shopfitting needs.
